MEMIEANDUM FOR: Chief, Records Integration Division, DD/P

Director of Personnel Director of Logistics Director of Training

SUBJECT:

General Services Administration Handbook,

WPlain Letters"

1. The General Services Administration has published the attached handbook, "Plain Letters," which is now available to all Covernment agencies. As the title suggests, "Plain Letters" deals with improving the quality of Government letters by writing them in simple, workeday English. It contains the basic rules for writing letters that are easy to understand, and provides numerous examples of the practical art of letterwriting.

- 2. This excellent handbook could be aptly entitled "Plain Writing." for although directed to letterwriters it ocvers the fundamentals of everyday writing. It is a down to earth treatment of the subject, without reference to outmoded readability scales.
- 3. What is your epinion of "Plain Letters" as a training aid and desk reference? Would there be a sufficient demand for copies to justify stocking them in Building Supply Rooms? If so, how many copies would fulfill your needs?
- h. Agency personnel have already expressed much interest in this handbook. I would therefore appreciate an early reply so that arrangements can be made as soon as possible for procuring an adequate supply of copies. The expense of filling numerous separate orders for the handbook will thus be avoided.
